Housing

Veterans Homes

The Idaho Division of Veterans Services (DVA) operates three Veterans Homes in Boise, Lewiston, and Pocatello. Their location and contact info is:

- Rick Holloway, 320 Collins Road, *Boise*, Idaho 83702 Tel: (208) 780-1600/1601F Email: rick.holloway@veterans.idaho.gov.
- Mark High, 821 21st Avenue, *Lewiston*, Idaho 83501 Tel: (208) 750-3600/3601F Email: mark.hign@veterans.idaho.gov.
- Josiah Dahistrom, 1957 Alvin Ricken Drive, *Pocatello*, Idaho 83201 Tel: (208) 235-7800/7801F Email: Josiah.dahistrom@veterans.idaho.gov.

All three homes share a common goal of providing responsive medical and supportive care to veterans who can no longer provide for themselves. The following criteria is required for admission eligibility:

- Applicants may be peacetime or wartime veterans with wartime veterans receiving priority admission status. The total service time must be at least 90 days. A copy of the Veteran's discharge papers (DD-214) must be provided with the application. If the discharge papers are unavailable, a copy can be requested through the Department of Veterans Affairs. The DVA will assist with the request.
- Applicants must have been discharged under honorable conditions and be an Idaho resident at the time of application.
- Applicants must apply for (or already be in receipt of) a VA pension, and Aid and Attendance. The DVA will assist with the pension application
- Applicants must be unemployable as a result of age, illness, or disability, and be eligible and apply for Medicaid benefits, or pay the current maximum monthly charge. Please include with the application a copy of the Veteran's Medicare card, private insurance cards, Social Security card, and Medicaid card. DVA welcomes applicants who may not yet be Medicaid approved, and will assist them with the application process.
- Spouses or widows of veterans (eligible for nursing care only) will need to provide proof of marriage when they apply.
- Veterans may be admitted without regard to their financial status. Currently, DVA is taking applications at each of their Veterans Homes.

The admissions committee will review each application carefully to ensure the Veterans Home is able to provide the appropriate level of care and services needed for the applicant. A Home shall not accept applicants or continue to extend care to residents for whom the facility does not have the capability or services to provide an appropriate level of care.

All residents are responsible for the cost of their care; charges are due the first of each month and must be paid in full by the resident or guardian on or before the 10th day of the month. Payment sources for nursing care can be from income and liquid assets (including social security and pensions), private insurance, Medicaid insurance, or Medicare insurance. If eligible for Medicare, the applicant must elect to participate, unless participation is waived by the Home Administrator. Participation in a Medicare Part D prescription drug coverage plan is also encouraged as this coverage helps to reduce costs for those who are paying privately for their care. The Home can provide a list of participating plans. Care charges are as follows:

☐ **VETERAN NURSING CARE** - Effective July 1, 2020, the daily rate for nursing care is \$204 per day or \$6,324 per month (31 days) plus medication and **ancillary charges** (briefs, oxygen, medical supplies, etc.).

☐ **ELIGIBLE NON-VETERAN NURSING CARE** - The current daily rate for eligible spouses, widows, and widowers is \$204 (includes medical supplies) plus other ancillary, special items, service charges, and current VA per diem rate

Residential care and domiciliary care costs are determined by assets and income. The Home's domiciliary and residential care beds are not Medicaid certified.

☐ **RESIDENTIAL CARE & DOMICILIARY CARE (Boise Home Only)** - Residential care and domiciliary care charges will increase in accordance with adjustments made to VA pensions.

- **Effective December 1, 2020 the monthly rate for residential care is \$1,453.** If Veteran has less than \$1,500.00 in liquid assets, the charge could be as little as 75% of income.
- **Effective December 1, 2016 the monthly rate for domiciliary care is \$1162.** If Veteran has less than \$1,500.00 in liquid assets, the charge could be as little as 60% of income.

NOTE: All rate information listed on this form is subject to change without notice. Assistance to individuals with completing admission documents and Medicaid applications is available from the Homes. Some veterans are also eligible for assistance from the Veterans Administration – Aide and Attendance pension. A State Service Officer is located in each Veterans Home and will review eligibility for VA benefits and assist with required applications

Education

SAA. The Idaho State Approving Agency (SAA) evaluates, approves, and monitors academic institutions, schools, and programs. These programs must lead to educational, vocational, and /or professional objectives so that veterans or other eligible persons can use the POST 9/11 GI Bill® (Chapter 33) or Montgomery GI Bill® (MGIB). The MGIB may be used for an undergraduate or graduate degree, a vocational certificate or diploma, a high school diploma. Types of training that may be approved include advanced flight training, correspondence training for college work only, or programs leading to a license or certificate required to practice a vocation or profession. The SAA creates and maintains a computer database listing all approved institutions and programs (courses of study) for Idaho schools.

The SAA was established by an act of congress in 1947 to insure that Veterans and eligible dependents can use the GI Bill educational entitlement in an approved educational and/or training program. Basic guidelines for approval are derived from the code of Federal Regulations, U.S. Department of Veterans Affairs Regulations and established SAA approving criteria. The SAA is a division of the Idaho Division of Veterans Services tasked with the responsibility of approving and monitoring all public/private schools, universities, and apprenticeship programs for those eligible for GI Bill educational benefits. Upon approval, education benefits may be used for undergraduate or graduate degrees, vocational certifications, on-the-job training, and high school diploma programs. Approvals may extend to educational programs for flight training, college correspondence, and professional license and certification.

University of Idaho. Veterans can apply for U of I admission (Enter fee waiver code "service" to waive application fee for Veterans). Section 702 of the Veterans Access, Choice and Accountability Act (Choice Act) requires that all public postsecondary institutions offer in-state tuition rates to all eligible veterans and their dependents, regardless of state residency status. Veteran to Nurse Program. This is an extension of the already-existing Practical Nursing program within the U of I's College of Technology. This program recognizes and awards credit for previous healthcare knowledge and experience gained by military veterans, and offers a veteran-friendly cohort-based bridge curriculum that will accelerate a veteran's progress to a nursing credential. Following a comprehensive assessment and advising process, veterans will be placed into variable credit courses. These courses will augment the veterans' healthcare training and experience in five areas of nursing practice. After completing the program, veterans will receive an ATC (Advanced Technical Certificate) in Practical Nursing and be eligible to sit for the NCLEX-PN exam. Students are admitted each semester. The Vet to Nurse option includes on-line learning and face-to-face lab and clinical experiences. Refer to <https://isu.edu/veterantonurse> to learn more about this program.

Employment

Unemployment Insurance. As an ex-service member, it is your right to file for unemployment insurance benefits after you are released from military services. You may establish a valid unemployment insurance claim based on your military service if you completed your first full term of service and your separation was under honorable conditions. Under certain situations, a valid unemployment insurance claim may be established even if you have not completed your first full term of service. Eligibility will depend upon the reason you were separated from military service. Call a representative at (208) 332-8942, who can provide additional eligibility information. You must file a claim online at www.labor.idaho.gov/claimantportal.

Veterans Preference Points. Idaho Law provides Veterans preference points for individuals who have been in active service, other than active duty for training, of the United States as defined by Idaho Code, Title 65, Chapter 5, Section 502(6), & U.S.C Section 2108. (See specific eligibility information below). Any preference eligible veteran discharged or released from active duty under honorable conditions (honorable or general discharge), or the widow or

widower of any preference eligible veteran provided he or she has remained unmarried, will receive an additional five (5) points to the final score of their competitive examination.

Veterans' preference points are also provided for individuals who have served on active duty in the armed services, have been discharged honorably, & who have a present service connected disability of 10% or more, or are a Purple Heart recipient. Veterans' preference points are added to the final passing score & may improve a Veterans position on a list of qualified candidates. The preference points added are used only for initial appointment & not for promotions, transfers, or reassignments. Veterans' preference requires public employers to provide additional consideration for eligible Veterans, but it does not guarantee the Veteran a job. To locate additional information inclusive of eligibility and points allowed refer to <http://www.labor.idaho.gov/dnn/idl/JobSeekers/VeteransServices/VeteransPreference.aspx>.

- **Burial Payments.** Effective July 7, 2014 VA changed its monetary burial benefits regulations to simplify the program and pay eligible survivors more quickly and efficiently. These regulations now authorize VA to pay, without a written application, most eligible surviving spouses basic monetary burial benefits at the maximum amount authorized in law through automated systems rather than reimbursing them for actual costs incurred.
 - **Service-Related Death.** VA will pay up to \$2,000 toward burial expenses for deaths on or after September 11, 2001. VA will pay up to \$1,500 for deaths prior to September 10, 2001. If the Veteran is buried in a VA national cemetery, some or all of the cost of transporting the deceased may be reimbursed.
 - **Nonservice-Related Death.** VA will pay up to \$700 toward burial and funeral expenses for deaths on or after October 1, 2011 (if hospitalized by VA at time of death), or \$300 toward burial and funeral expenses (if not hospitalized by VA at time of death), and a \$700 plot-interment allowance (if not buried in a national cemetery). For deaths on or after December 1, 2001, but before October 1, 2011, VA will pay up to \$300 toward burial and funeral expenses and a \$300 plot-interment allowance. For deaths on or after April 1, 1988 but before October 1, 2011, VA will pay \$300 toward burial and funeral expenses (for Veterans hospitalized by VA at the time of death). An annual increase in burial and plot allowances for deaths occurring after October 1, 2011 begins in fiscal year 2013 based on the Consumer Price Index for the preceding 12-month period.
