Veteran Housing Programs

Texas Veterans Land Board Programs

The Texas Veterans Land Board (VLB), a division of the Texas General Land Office, administers the following three veterans' loan programs which provide low-interest loans to bona-fide Texas resident veterans who received an other-than-dishonorable discharge and served at least 90 days active duty:

- The Land Loan Program;
- Veterans Housing Assistance Purchase Program; and
- Veterans Home Improvement Loan Program.

Refer to <http://www.glo.texas.gov/vlb/veterans-benefits/veteran-loans/eligibility.html> for additional information on these programs.

VLB Texas State Veterans Homes

The nine VLB Texas State Veterans Homes provide affordable, long-term nursing care for Texas veterans who were not dishonorably discharged, their spouses and Gold Star parents provided they meet the age and residency requirements. Costs are based on income. The homes were built

through a partnership between the VLB and the VA. The VLB owns the homes and contracts with professional long-term health care providers to operate each facility. Like all VLB programs, the Texas State Veterans Homes are self-supporting and cost Texas taxpayers virtually nothing.

Conveniently located across Texas. Each facility is designed to enhance quality of life with a clean, caring and dignified setting appropriate to those men and women who have served our country with honor. Because the VA subsidizes much of a veteran's cost to stay at a VLB Texas State Veterans Home, daily out-of-pocket rates are well below average and include the cost of medications for veterans. Residents can choose between a spacious private or semi-private room based upon availability. Alzheimer's units at each home provide highly specialized care, including beautifully landscaped, secure courtyards.

Financial Assistance Programs

Tax Exemption for Veterans

Texas law provides partial exemptions for any property owned by disabled Veterans and surviving spouses and children of deceased disabled Veterans. It also provides a partial exemption for residence homesteads donated to disabled Veterans by charitable organizations that also extend to surviving spouses who have not remarried. The amount of exemption is determined according to percentage of service-connected disability.

Disabled Veterans Property Tax Exemption

- Total property tax exemption for 100% disabled veterans and their surviving spouses.
- Veterans with 10 - 90% VA disability can get a reduction of their home's' assessed value from \$5,000 - \$12,000 depending on disability percentage. Surviving spouses also qualify.
- Some counties offer homestead tax exemptions for veterans.

Free Drivers License for Disabled Veterans

Veterans with a service-connected disability of at least 60% and an honorable discharge can get a Texas driver license or ID card for free.

Home Loans

The Texas Veterans Land Board offers generally below-market interest rates for home loans for Texas Veterans, lower rates for those who have a disability rating of 30% or more; home improvement and land loans. Texas is currently the only state to offer land loans – up to \$150,000, with 5% down, and 30 year rates (depending on credit).

State Veteran Education Benefits

The Hazlewood Act

The Hazlewood Act is a State of Texas benefit that provides qualified Veterans, spouses, and dependent children with an education benefit of up to 150 hours of tuition exemption, including most fee charges, at public institutions of higher education in Texas. This does NOT include living expenses, books, or supply fees.

A Veteran must:

- At the time of entry into active duty the U.S. Armed Forces, designated Texas as Home of Record; or entered the service in Texas; or was a Texas resident;
- Have received an honorable discharge or separation or a general discharge under honorable conditions as indicated on the Veteran's Certificate of Release or Discharge from Active Duty (DD Form 214);
- Served at least 181 days of active duty service (excluding training);
- Have no federal Veteran's education benefits, or have no federal Veterans education benefits dedicated to the payment of tuition and fees only (such as Chapter 33 or 31; for term or semester enrolled that do not exceed the value of Hazlewood benefits;
- Not be in default on a student loan made or guaranteed by the State of Texas;
- Enroll in classes for which the college receives tax support (i.e., a course that does not depend solely on student tuition and fees to cover its cost), unless the college's governing board has ruled to let Veterans receive the benefit while taking non-funded courses; and
- Meet the GPA and excessive hour requirement of the institution's satisfactory academic progress policy in a degree or certificate program as determined by the institution's financial aid policy.

Veterans who are granted their first Hazlewood Act exemption beginning fall, 2011 must reside in Texas during the semester or term for which the exemption is claimed. This requirement does not apply to the Veterans who either received the exemption prior to the 2011-2012 academic year, have reenlisted into active duty, or reside with a spouse who is on active duty.

On January 26, 2015, the U.S. District Court for the Southern District of Texas ruled that the requirement that Veterans must have entered service in Texas in order to be eligible to receive the Texas Hazlewood exemption of tuition and fees at public schools (the fixed point residency requirement) was unconstitutional. On May 12, 2015, the office of the Texas State Attorney General filed an appeal in the United States Court of Appeals for the Fifth Circuit. Note: The Texas Veterans Commission is not a party to appeal. Current Hazlewood eligibility requirements remain unchanged.

Legacy Act (Child)

Eligible Veterans may assign unused hours of exemption eligibility to a child under certain conditions. To qualify a child (legacy recipient) must:

- Be classified by the institution as a Texas resident;
- Be the biological child, stepchild, adopted child, or claimed as a dependent in the current or previous tax year;
- Be 25 years old or younger on the first day of the semester or term for which the exemption is claimed (unless granted an extension due to a qualifying illness or debilitating condition); and

- Meet the GPA and excessive hour requirements of the institution's satisfactory academic progress policy in a degree or certificate program as determined by the institution's financial aid policy.

Legacy recipients will receive an exemption for the number of degree certified hours reported by the institution for that term or semester. Maximum degree certified hours awarded to the Legacy recipient will be dependent upon the degree or certificate program in which the student is enrolled for that term or semester and shall be consistent with the program length as defined within the school catalog as approved by the regional accreditation commission. *If a child to whom hours have been delegated fails to use all of the assigned hours, a Veteran may re-assign the unused hours that are available to another child. Only one child will use Hazlewood Legacy benefits at a time.

Hazlewood Act for Spouse/Child

Spouses and dependent children of eligible Active Duty, Reserve, and Texas National Guard who died in the line of duty or as a result of injury or illness directly related to military service, are missing in action, or who became totally disabled for purposes of employability as a result of a service-related injury or illness are entitled to each receive a 150 credit hours exemption. A spouse must:

- Be a spouse of a Veteran who, at the time of entry into the U.S. Armed Forces, be classified by the institution as a Texas resident, designated Texas as Home of Record, or entered the service in Texas;
- Be a spouse of a Veteran of the U.S. Armed Forces or the Texas National Guard who died as a result of service-related injuries or illness, is missing in action, or became totally disabled (100%) as a result of service-related injury or illness or is entitled to receive compensation at the 100% rate due to individual employability (IU) due to a service connected injury or illness;

- Be classified by the institution as a Texas resident; and
- Meet the GPA and excessive hour requirements of the institution's satisfactory academic progress policy in a degree or certificate program as determined by the institution's financial aid policy. This requirement does not apply to the spouse of a MIA, KIA, or service connected deceased Veteran.

A child must:

- Be a child of a Veteran who, at the time of entry into the U.S. Armed Forces, be classified by the institution as a Texas resident, designated Texas as Home of Record, or entered the service in Texas;

Dependent children of MIA/POWs

Dependent children of TX military personnel MIA or POW can receive an exemption for payment of tuition and some fees at public colleges and universities. Veteran Employment Programs

Veterans Preference

Wartime veterans have preference in employment with State agencies or offices, as do widows and children of those killed on active duty. State agencies must practice veterans' preference until they have reached 40% veteran employment.

Additionally, a veteran is entitled to reemployment rights with his last employer when he is released from the Armed Forces of the United States, providing his absence is not longer than four years. The right of reemployment is available regardless of whether the veteran was, prior to service, employed by the State, county or city government, or by private industry. Reemployment rights of veterans are now provided by both State and Federal laws. We have provided a link to the State Law regarding reemployment rights.

Military Time Credit towards State Retirement

Non-retired veterans who are state employees can claim their active duty military time toward retirement by making a payment equal to the monthly contribution an employee would make times the number of months active duty. The maximum anyone can buy is 60 months.

Veteran Entrepreneur Program

The Veteran Entrepreneur Program provides veteran entrepreneurs and veteran small businesses the tools they need to start or grow their businesses. The program provides consultation with business plans, financing, marketing and more.

Free Drivers License for Disabled Veterans

Under Texas Transportation Code Title 7, Chapter 521, Section 521.426, Texas drivers licenses may be furnished free of charge to veterans who have service-connected disabilities rated 60% or more by the VA or by a branch of the Armed Forces of the U.S. Application must be made prior to the time present drivers license expires. Application forms may be obtained from Department of Public Safety's license examining offices located throughout the State. A link to the to the Texas Department of Public Safety's **Drivers License information** website is <http://www.txdps.state.tx.us/DriverLicense/index.htm>. Application forms should be completed by the veteran and forwarded to the VA for verification of service-connected rating of 60% or more. If a veteran was disability-retired from military service and has no VA claim file, proof of disability must come from their respective branch of military service.

Free Recording of Discharges

Under Texas State law, Local Government Code Sec. 0192.002, the County Clerk in each County is required to record, free of charge, the official discharge of each veteran who served in the Armed Forces of the United States of America. This free service is very important as it provides veterans

with a ready source from which they can obtain a certified copy of their discharge whenever it is needed. **It is the veteran's responsibility to have the DD214 or Discharge recorded. Please also note that if you do record your DD214 with the County Clerk, it then becomes a public record.** See "Safeguard Your Discharge (DD214)" at <http://www.tarrantcounty.com/eveterans/cwp/view.asp?A=776&Q=432386>. Also note that the Texas Veterans Commission does not keep a record of your DD214 or Discharge.

Veteran Treatment Courts

The mission of Texas treatment courts is to successfully rehabilitate veterans by diverting them from the traditional criminal justice system and providing them with the tools they need to lead a productive and law-abiding lifestyle while improving mental health recovery and successful re-entry into the community.
